## CATALOGUE OF BIG VALUES

**MOST EVERYTHING IN MERCHANDISE**

This big helpful Catalogue will be more than welcome in every home. It offers a wide range of everyday needs at money-saving prices. These goods and prices are the result of our splendid buying facilities, combined with the product of our own spacious, modern factories—EATON-made goods—whereby all middlemen's profits are eliminated and a positive saving passed on to you.

**QUICK SERVICE**

Our service is unequalled. We give not only the best possible values, but also prompt delivery and all-round satisfaction are assured. All orders are cared for with the utmost consideration and operated on a time schedule. In many instances orders are shipped within a few hours of receipt of same.

---

## WE PAY THE SHIPPING CHARGES ON ALL ORDERS OF $10.00 OR OVER THE CHEAPEST WAY

ALSO, WE PAY THE SHIPPING CHARGES ON CERTAIN HEAVY GOODS, SUCH AS FURNITURE, FARM IMPLEMENTS, ETC., WHICH ARE QUOTED FREIGHT PAID THROUGHOUT THE CATALOGUE EVEN IF THE AMOUNT IS LESS THAN $10.00

**(IN ONTARIO, QUEBEC AND EASTERN PROVINCES)**

## TEST THE GREAT MONEY-SAVING VALUES OFFERED IN OUR CHAIN OF BARGAINS

Look for the Chain of Bargains in this Catalogue. They represent the best values we know of in their several lines of merchandise. To our regular customers we advise ordering early and often so that they may spread the good news of these very pronounced values in the homes of our customers who order without any definite regularity. We have prepared **a special order form** enclosed with each catalogue and on which we give a partial list of "Chain Bargains." Fill out your name and address and mark the articles you want at the prices we quote and send your order along without delay. If you have not bought regularly from us, here is your opportunity to test our values and service.

## THE EATON GUARANTEE

**"GOODS SATISFACTORY OR MONEY REFUNDED INCLUDING SHIPPING CHARGES"**

This is, in brief, our guarantee to you—no matter how small or how great your purchase, you have the absolute assurance of satisfaction. We say most emphatically that we will refund your money in full and pay transportation charges both ways on any purchase which does not meet with your approval in every respect. Send a trial order without further delay, and prove for your own satisfaction the full meaning of our helpful Mail Order Way

## INFORMATION THAT IS OF INTEREST TO EVERY MAIL ORDER CUSTOMER

### Deposit Accounts

By making a deposit with our D.A. Office you can charge your purchases to it, and thereby save yourself the trouble of handling money at every transaction. Besides, on amounts on deposit up to $500.00 we pay five per cent. interest, and furnish you with a monthly statement of account. **Be sure and state Deposit Account Number** when ordering goods, and instruct us to withdraw the amount from your account.

### Orders Delayed in Transit

**First.**—Allow sufficient time for shipment to arrive.

**Second.**—Enquire at **Express, Freight or Post Office.**

**Third.—Make sure,** in case of damage or shortages, you receive **a Bad Order Receipt** from railway company. Send receipt to us. Full particulars of your order are requested. For these kindly use separate writing paper.

**NOTE.**—Do not write on Bad Order Receipt.

### Foreign Orders

We do not pay any duty or transportation charges on orders shipped to Newfoundland, European, Asiatic or foreign ports. A special charge of five per cent of the value of the order is made, which guarantees safe delivery to destination. Enclosures for foreign orders are to be sent to us packed for shipping, and invoiced. A charge of 40c per $100.00, or fraction thereof, is made on the value of such enclosure for safe delivery.

### Samples

We are always willing to send samples at any time when requested, but would suggest sending us your order without them, and if the goods are not satisfactory in any way return same at our expense—we shall exchange or refund money and all charges. When requesting samples use separate sheets with your name and address, and be sure to supply **numbers, shades** and **price** of article, which is very important.

### Personal Service

**Merchandise not appearing in the index or catalogue** may be often found through the **Personal Service Department.** Address your request or order to them, and it will receive careful attention by experts.

**Our Fashion Experts.** Take advantage of their expert advice and suggestions on styles, and those many little daily touches which appeal to the well-dressed people.

**Furnishing a Room or a Home, a Club or an Institution.** By letting this department send you suggestions and quotations you receive the benefit of artistic ideas showing the minimum expense, and with the least trouble to yourself in ordering.

Address correspondence to **Personal Service Dept.,**

## READ THIS NOTICE

**There are hundreds of contingencies continually arising to prevent the best seeds always giving satisfaction, such as sowing too deep, too shallow, in too wet or too dry soil; insects of all descriptions destroying the plants as soon as or before they appear; wet weather, cold weather, frosts, chemical changes in the seeds induced by temperature, etc. For the above reasons it is impracticable to guarantee seeds under all circumstances. We give no warranty, expressed or implied, as to description, purity, productiveness, or any other matter of any seeds we send out, and we will not be in any way responsible for the crop.**

### BEAUTIFULLY MODELLED LINES

**82-603. Women's All-wool Serge Suit, thoroughly practical and serviceable. A suit that will look well and wear well—one that you will be more than pleased with.**

Has a quickly removable over-collar of embroidered Lawn, lined with twill silk or fine quality satin. The suit collar is a graceful roll effect. The coat itself is semi-fitting in style, smart, neat, and with a small pocket. Trimmings of novelty buttons and military braid add a little touch of ornamentation. The skirt is finished with three pleats down each side, giving an extra wide, full sweep at the bottom. Pleats come close, and fit smoothly at the hips, where they are stitched. **Colors Black and Navy.**

**Bust 32, 34, 36, 38, 40, 42.**
**Skirt Bands 24, 25, 26, 27, 29, 30 inches.**
**Lengths 37 to 42 inches.**

### THE NEW FLARE COAT

**82-602. Women's All-wool Serge Suit. There is a double comfort here—the comfort the garment itself will give, and the comfort of knowing you have one of the latest ideas of Dame Fashion.**

Made with the new ripple coat effect, which has such grace and charm, and lined with twill silk or fine quality satin. There is an over-collar of corded silk. The belt is the same style at the back as at the front, making a very attractive coat. The cuffs are finished similar to the belt, and the whole is completed with novelty button trimming. A little study of the illustration shows the beauty of the ripple flare effect which is so popular. Skirt has a neat yoke, pleated down the front, and, fitting nicely at the hips, falls in a wide, sweeping flare to the hem. **Colors Black and Navy.**

**Bust 32, 34, 36, 38, 40, 42.**
**Skirt Bands 24, 25, 26, 27, 29, 30 inches.**
**Lengths 37 to 42 inches.**

### FASHION'S LATEST TOUCH

**82-600. Women's All-wool Serge Suit. Another very attractive model, made on the smart and pleasing lines of the new ripple or draped style.**

The collar on this suit can be worn as shown or buttoned across in a very novel effect. The belt is attached at sides a little to the back, and buttons with novelty buttons at front. The flare ripple skirt to the coat has been mentioned before as being very stylish, and this model is trimmed at the bottom with military braid. Lined with twill silk or good quality satin. The skirt flares from the hips in the sweeping, graceful lines of the new rolling style, and is wide and roomy at hem. **Colors Black and Navy.**

**Bust 32, 34, 36, 38, 40, 42.**
**Skirt Bands 24, 25, 26, 27, 29, 30 inches.**
**Lengths 37 to 42 inches.**

### HERE IS INDIVIDUALITY

**82-601. Women's All-wool Serge Suit. To those who appreciate correct tailoring and smartness of design this Suit cannot fail to please, for it is truly up to these requirements.**

The material is also a very popular one. The collar, made on new, pretty lines, and trimmed with Military braid, can be worn close to the throat, giving a semi-military effect if desirable. Small side pleats at back and front and the pointed tabs give another stroke of individuality to the costume. Pockets at side. Military braid trimming at bottom of coat, which is lined with twill silk or good quality of satin. The skirt is trimmed to match the coat, and is the wide, roomy, flare model, with additional width being given by reason of the pleats. **Colors Black and Navy.**

**Bust 32, 34, 36, 38, 40, 42.**
**Skirt Bands 24, 25, 26, 27, 29, 30 inches.**
**Lengths 37 to 42 inches.**

## MATERNITY COAT

**82-309. Here is a Maternity Coat of Poplin that is made on an entirely new principle and one which will cover a long-felt necessity. It is an adjustable** coat so arranged at the sides and where the buttons hold the belt at the front, that the fulness which is held at the waist may be let out in stages a little at a time and still retain its style and flare effect. Each arrow in the inset points to one of the clever devices that are the means of thus adjusting the coat. We feel confident that the prospective mother will welcome this garment as being a source of great comfort to her. Collar trimmed with corded silk and the coat is lined to the waist with twill silk. **Black and Navy. Bust 32 to 46. Length 48 inches.**

**ALL-ROUND BELTED STYLE**

## GABARDINE

**82-420. Stout Women's Coat of Gabardine. That the designers who design these models have given close attention to this garment is quite apparent. It** is the three-piece belted style. Coat is lined to the waist with twill silk. The collar is faced with corded silk, can be worn high and closed when required, and is cut to follow the contour of the shoulders. The fulness is nicely held at the waist by the belt, and the novelty pocket is a little idea that helps to increase the nobby appearance of this coat. **Navy and Black. Bust 37 to 51. Length 45 inches.**
Price ..... **10.95**

**The stout figure, just as the small figure, must receive its own special attention. Because a garment suits a medium figure it does not follow that its lines will do for those who wear the extra sizes. Appreciating this we have made these Coats to suit Stout Women—to suit them in a final, genuine satisfaction.**

A CHOICE OF

## TWO MATERIALS

**82-718. Women's Coat in a choice of either Diagonal Frieze, as illustrated, or a Black and White Check. For** those who prefer the full unbelted style of coat we can heartily recommend this one. On the coat made of check material, the collar and cuffs are trimmed with black and navy—just the reverse to the way the Black Coat is finished, and novelty buttons trim the handy patch pockets. Smart lapel collar. **Diagonal Frieze comes in Black and Navy, and the Check is Black and White Shepherd's Check. Bust 32 to 46. Length 40 ins.**

PRICE **3.95**

HERE ALSO ARE

## TWO MATERIALS

**82-716. Women's Coat in a choice of two materials. This is one of the models that are highly favored this season** and we have put into it thought and carefulness of workmanship that is marked. The wide one-piece belt is supported by the strap and button effect, at both back and front. The collar and cuffs are trimmed with corded silk. Note the long well shaped man-tailored revers. **Black or Navy Cheviot, or in Black and White Check. Bust 32 to 46 inches. Length 40 inches.**

PRICE **4.95**

NEW STYLISH DESIGN

## ALL-WOOL SERGE

**82-401. Splendid Nobby Coat for Women. In All-Wool Serge Cloth. Very new, very becoming and very moderately priced indeed is this Coat and to those to whom it appeals we** can only say that the coat will come up to expectations and that it should meet your approval. It is belted all around with a four-piece belt, held at each intersection by a large button. Collar of moire silk is novel in shape and follows the contour of the shoulder. Deep cuff and lined to waist with sateen **Colors Black and Navy. Bust 32 to 46. Length 42 inches.**

PRICE **5.95**

**The Coats in this catalogue are made to give you a real satisfaction and a real service—and that means that they must please you in appearance—they must please you in style—they must please you in material and they must please you in price. It has been our anxious aim always to do just those things and we believe we have succeeded.**

# STOUT AND MATERNITY DRESSES

A dress designed for stout women must be made with the idea always in mind of helping the wearer to attain a more slender appearance. The very closest attention to little details is what accomplishes this—attention to the lines of the design, to the pattern in the material, and to the material itself.

The Maternity Garments shown on this page have been made after a great deal of careful planning. Such a garment must convey to the wearer the assurance that it is built on health-conducive lines, and answers all the requirements of appearance, convenience and comfort.

## AN ALL-WOOL SERGE SKIRT

**A TRIUMPH OF LOW PRICING**

## 2.19

**This All-wool Serge Skirt at $2.19 is one of those bargains you will always be proud of having bought. Three reasons account for its very low price:**

**FIRST—The Serge was bought before the rise in price of wool.**

**SECOND—The Skirts were made in our own workrooms under labor-saving conditions.**

**THIRD—A very small profit is sufficient when selling goods from maker to wearer.**

**The same quality of Serge, if bought at to-day's price, and made in the same style, would sell at about $4.00. You save the difference if you order early. The supply is limited to our present stock, and cannot be replaced at this bargain price when sold out.**

**56-409.** Stylishly designed in one of the latest models, cut in three gores, the back being in plain one-piece style, while the front is trimmed with a neat pocket at each side, and a full-length, button-finished fold joining the two gores. **Waistbands 22 to 29 inches. ## MISSES' AND JUNIORS' SECTION

To you, the wearer of the smaller sizes, we want to say something. On this page and the pages immediately following you will find styles made expressly for you. Not styles that are replicas of older or larger women's sizes, but styles designed to suit the smaller figure—to suit it in the charm and the grace that it demands and the admiration it compels. So we submit this section for your consideration. It does not, maybe, tell the story of the thought and discussion, of the labor, of the long trips to centres of fashion, of many things WE do in order to offer YOU the true assurance that we believe our Misses' Section fully carries out our policy of giving the greatest possible value for the least possible price.

**74-1712. This Acme Maternity Corset** is very soft and light, containing very few bones, but still is firm enough to preserve the figure and give an absolute abdominal support. On the inside are four pleats which allow for the gradual enlargement of the corset. Made of fine White Coutil, trimmed with a serviceable fold of Batiste, edged with lace. **Sizes 20 to 28 inches..... 2.00**

**74-1714. Acme Nursing Corset.** A comfortable, convenient model which every mother will appreciate. Designed to give the support necessary for the figure to regain its regular lines. Made of good quality White Coutil, well boned, five-hook Paris clasp, with a cork protector. The nursing flaps close with two patent dome fasteners. Four hose supporters. **Sizes 20 to 28 inches..... 1.25**

**74-1710. The Treo Elastic Girdle,** made of washable, surgical elastic, boned with rust-proof steels in front and back, dispensing entirely with side steels. A most comfortable corset. The elastic extends with slight pressure, allowing perfect freedom, yet gently supports the figure. **Sizes 22 to 36. When ordering give waist measure taken loosely over uncorseted figure.** Price.... **2.50**

**74-1711. The Acme Bust Form and Corset combined.** A stylish and serviceable model for slender or undeveloped figures, made of White Batiste, easily and quickly adjusted by small buckles at the side. Four hose supporters of strong webbed elastic. **Sizes 20 to 28 inches. Correct measurement for this model is two inches smaller than outside skirtband.** Price..... **1.25**

**74-A870. Woman's Ferris Waist,** designed to give a firm support and a stylish figure, yet is soft, pliable and comfortable. Made of fine White Coutil, lightly corded and boned with aluminum-plated, rust-proof steels. Medium bust, long hip and skirt, with strong hook below the front clasp. Four hose supporters. **Sizes 20 to 30 inches. Correct measurements two inches smaller than outside skirtband. 1.50**

**Acme CORSET FOR MISSES**

**74-1706.** Special care has been taken in designing this model to mould and support the figure with easy grace. To allow plenty of breathing space gussets of elastic are set in the low bust. Long hip and skirt. The boning is very pliable, and so arranged to leave the hip free from pressure. **Sizes 19 to 26 inches.** Price..... **1.00**

**74-1705. Misses' Hygiene Waist,** made of White Coutil, boned with flexible steels, laced in the back, short, strong clasp in front. The double elastic lacing in front allows plenty of room for the figure to develop. Low bust, medium long hip and skirt. Four webbed elastic hose supporters. **Suitable for ages 12 to 16 years. Three inches smaller than outside skirtband is correct measurement. Sizes 19 to 26 inches.... 1.00**

Note that there is a Corset here to fit your figure, as these Corsets are made in different models.

ACTUAL PHOTOGRAPHS THAT SHOW EXACTLY HOW SPLENDIDLY THESE CORSETS FIT

PRACTICAL SIDE CORSET

**74-1250. P. N. Corset,** for tall, medium and stout figures. Made of White Jean, boned with non-rustable steels. Medium bust, long hip and skirt. (Small inset shows double side steels.) The short inside steel may be removed and turned frequently. Four hose supporters.
**Sizes 20 to 36.** Price..... **2.00**

**74-1260.** Same model as 74-1250, suitable for short, medium and stout figures. Price..... **2.00**

**74-806. P. N. Corset,** made of durable Coutil, boned with flexible, finely tempered steels. Five-hook Paris clasp protected inside with cork strip. Medium high bust, long hip and skirt. The triangular inset of soft elastic reduces the flesh on the upper part of the limb. Four hose supporters. Suitable for slight and medium figures.
**Sizes 18 to 28.** Price..... **1.50**

**74-A333. R. & G. Corset,** for slight and medium figures, of good quality White Batiste, boned with pliable steels. Strong graduated front clasp with double covering. Medium bust, long hip and skirt, with two hooks below the front clasp. Back has inset of elastic to curve lower edge inward. Four hose supporters.
**Sizes 19 to 30.** Price..... **1.50**

**74-1262. New Style P. N. Corset,** an excellent model for average figures. Made of fine White Coutil. The strong graduated front clasp protected inside with cork strip. Medium high bust, long hip and skirt, slightly shorter in the back. Four hose supporters of webbed elastic. **Sizes 19 to 30.** Price.... **2.00**

**Two inches smaller than outside skirtband is correct size of your corset. Select corset for your style of figure. Note 74-1262 — how to fasten hose supporters. Front supporters should be fastened on the inside of the limb. Others fasten straight down.**

**74-240C. La Camille Front-lace Corset,** designed for slight and medium figures. Of fine White Coutil, medium bust, long hip and skirt. The ventilation device, back and front, is a special feature, as is the elastic inset in the back, which holds the corset snugly to the figure. Six hose supporters. **Sizes 19 to 30....** **3.00**

**74-352. A New Model R. & G. Corset,** designed in medium length for short figures. Made of fine White Coutil, boned with rustless, finely tempered steels. Bust trimmed with turned-over fold of Batiste, finished with pretty edging. Four hose supporters of strong webbed elastic. **Sizes 19 to 28.....** **1.50**

**74-B334. R. & G. Corset.** Excellent model for medium and tall figures. Made of White Coutil, reinforced across the abdomen, boned with tempered steels. Graduated, double strength, front clasp. Medium bust, long hip and skirt, triangular elastic gusset at each side of back turns lower edge of corset inward and takes care of surplus flesh. **Sizes 20 to 36.** Price..... **2.00**

**74-C362.** Serviceable **R. & G. Corset** designed to give graceful lines to full figures. Made of good quality White Coutil, carefully boned to leave the hip free from pressure. Medium bust, long hip and skirt, with elastic insets at the back to give the incurve effect. Six hose supporters. **Sizes 19 to 30...** **2.50**

# NEMO SELF-REDUCING CORSETS

**HOW to ORDER CORSETS**
Size, two ins. smaller than waist measurement, taken over outside skirt.

**HOW TO ADJUST CORSETS**
Lacing—Adjust so that back steels will be about two inches apart throughout the entire length.

## WITH THE LASTIKOPS WEBBING FOR SHORT STOUT FIGURES

**74-319. Nemo Self-Reducing Corset** for short, stout figures, made of fine White Coutil, boned with double tempered steels, strong graduated clasp. This model has the regular self-reducing front, long skirt with broad, confining bands of Lastikops webbing across the hips, which gives a slender appearance to the figure and turns the lower edge of the corset inward. Four hose supporters of elastic webbing.
Sizes 20 to 36.... **4.00**

**74-321.** Same as 74-319, for tall, stout figure.
Sizes 20 to 36.... **4.00**

## No. 322 No. 324 LASTICURVE BACK FOR MEDIUM SHORT STOUT FIGURES

**74-322. Nemo Self-Reducing Corset,** designed for medium and short, stout figures. This splendid corset reduces and supports the abdomen, and is made of fine White Coutil, medium low bust, long hip and skirt, with the Lasticurve back invention, which consists of deep gores of Lastikops cloth at the lower end of the steels. This prevents the corset riding up on the figure, and turns the lower edge inward, making it impossible for the edge to show through the thinnest gown. Four strong hose supporters.
Sizes 20 to 36. Price..... **4.00**

**74-324.** Same as 74-322, for tall, stout figures.
Sizes 20 to 36.... **4.00**

## NEW MODEL WITH MILITARY STRAP

**74-333.** The latest model **Nemo Corset,** a well-made, serviceable model, designed with the new military strap on the inside. (See small inset for this special feature, which gives a slender, graceful appearance to the average figures. Made of fine White Coutil, carefully boned to leave the hip free from pressure. Medium bust. Long hip and skirt, six hose supporters of Lastikops webbing.
Sizes 20 to 30. **4.00**

## KOPS-SERVICE CORSET WITH THE WONDERLIFT BANDAGE

**74-555. The New Nemo Kops-service Corset,** designed for full figures. The special feature is the "Wonder-lift Bandage" attached to the inside at the groin section, where the corset curves closely inward, giving a firm, comfortable support. (See small inset.) The bandage or support is of strong, durable elastic, adjusted by lacing at each side. The outside skirt, which covers the front inside section, assures smooth, graceful lines. Made of White Coutil. Long hip and skirt, with strong hook below the front clasp. Six hose supporters of Lastikops webbing.
Sizes 23 to 36.... **6.00**

## WITH RELIEF BANDS FOR SHORT STOUT FIGURES

**74-403. Nemo Self-Reducing Corset.** A model specially adapted to short, stout women who require a general figure reduction and a moderate degree of abdominal support. This corset has the improved relief straps which render a most efficient service and a comfortable support. Made of strong Coutil, with medium low bust, long hip and skirt, with bands of elastic at the back. Six hose supporters.
Sizes 20 to 36. **5.00**

## THE INCURVE BACK FOR AVERAGE FIGURES

**74-506. Nemo Self-Reducing Corset,** suitable for the average stout figure, made of White Coutil, medium bust. The special feature of this corset is the incurve back. Two bands of Lastikops webbing confine and reduce the hips, and turn the lower edge of the corset inward. In the skirt, in the front and on each side, are deep gores of Lastikops cloth, which expands freely, but never loses its elasticity. This allows for the natural spread of the body when in a sitting position, and takes care of the flesh on the outside of the limb. Self-reducing straps in front. Four hose supporters.
Sizes 20 to 36. Price..... **6.00**

# THE BEST THREAD BY TEST

## THE BUSY HOUSEWIFE RECOGNIZES THE TRUE VALUE OF EATON THREAD

THE superb qualities of elasticity, strength and smoothness are the merits by which our famous brands have won such favorable distinction.

They are of our own manufacture, and "Made in Canada" by skilled and efficient workmen, under most congenial conditions, in bright, sanitary factories.

The steady increase in the cost of materials has not altered the **EATON** standards either in quality or price.

This characterizes in part "The **EATON** Mail Order Way"—that shopping service which ensures the greatest possible satisfaction, even in your most modest requirements.

### DIAMOND (E) THREAD

**PER SPOOL 3c** **PER DOZ. 35c**

At the low price catalogued this thread will continue to be in great demand by those who require a satisfactory sewing cotton for the smallest outlay. Six-cord, 200 yards on spool, made in fine, medium and coarse, sizes 10 to 70 white, 10 to 60 black.

A single-breasted sack style, with serviceable Italian body linings. Five-button vests, and good fitting three-pocket pants. **Sizes 35 to 44-inch chest, 32 to 42-inch waist, 30 to 34-inch leg.**

Price **5.00**

**44-168.** The most stylish dressers this season are wearing these black and white mixtures. This line—correct in style and material—is priced at only $7.95! It is, beyond question, one of the greatest money-savers of the season. The fabric is a firmly woven, spring-weight material with a clean wearing surface. The color is a black and white pepper and salt effect—some have an overplaid of blue. Coats are single-breasted style, and have the fashionable broad lapel. Lined with durable twilled Italian cloth. Vests close with five buttons. Trousers are cut in the season's prevailing style, and have three pockets. In fact the general build of this suit is such as you go very, very far to find in the class of goods sold at this low price. **Sizes 35 to 44-inch chest, taken over vest; trousers measure 3 inches narrower in waist than chest, 32 to 42 inches, inside leg 30 to 34 inches.**

Price **7.95**

## HOW TO MEASURE

The measurement form we give on this page is for the measurement of our Ready-to-wear Clothing, and, while we will make such alterations as shortening sleeves, making the waist of trousers smaller, and the trouser legs shorter, **we make no other alterations. Ninety per cent. of exchanges are made necessary because customers order suits larger than necessary. Always measure over vest, and state height and weight.** Our Ready-to-wear Clothing is made in our own factory, under the direction of experts, and every garment is guaranteed to fit or we will refund your money and all transportation charges you may have paid.

## MOTHERS! JUST LOOK AT THIS FINE TWEED SUIT

## 1,400 SUITS ONLY

**94-522.** Really, we ourselves were astonished at being able to secure this **Suit** to sell at such a price. It is one of the biggest Boy's Suit values we have been able to offer in many a season. It is made from a good All-wool Canadian Tweed material in Greys, Browns and Olives. There are several shades—all seasonable. Tailored in a single-breasted Norfolk style, with yoke back and front, two small pleats from yoke to waist, belt all around, patch pockets, and it is lined with a durable twilled Italian. The bloomer pants are large and roomy, and are lined and fastened at the knee with the new Governor fastener—a metal hook that fastens into an eyelet, which does away with all buckles, and may be regulated so as to be always tight at the knee.

**Sizes 6 to 12 years of age. Price..... 3.45**

**Sizes 13 to 16 years of age. Price..... 3.95**

# Silver Mound!

**"Silver Mound"** is a specific registered Trade Mark. As the name implies, "Silver Mound" consists of a mound of Sterling Silver neatly designed and mounted on the back of staple pieces of silver-plated ware as "Spoons and Forks" by experienced silversmiths. This gives a reinforcement of Sterling Silver many times the thickness of the heaviest Electro deposit at the spot where there is the most wear.

## RING MEASUREMENT—THIS IS IMPORTANT

**BE SURE TO READ THESE MEASUREMENT INSTRUCTIONS CAREFULLY**

**1st.** Measure around the base of the finger with a small piece of paper, having the edges straight and ends perfectly square
**2nd.** Place the piece of paper on scale and measure from extreme left to right, always keep all the figures in view. If it is even with line 8, size 8 is wanted; if it is half-way between 8 and 9, size 8½ is correct.
**3rd.** Never take the measure of your finger around the knuckle, if you do the ring will be much too large.
**4th.** Never overlap ends of paper when measuring, just let ends meet.

## We'll Never Let The Old Flag Fa

PRICE 15¢ COPY

BRITAIN'S FLAG has always stood for Justic
Britain's hope has always been for Peace,
Britain's foes have known that they could trust
To do our best to make the cannons cease.
Britain's blood will never stand for insult,
Britain's sons will rally at her call,
Britain's pride will never let her exult,
But we'll never let the Old Flag fall.

CHORUS:

We'll nev-er let the old flag fall. For we love it the best of all. We don't want to fight to show our might. S
when we start, we'll fight, fight, fight. In peace or war you'll bear us sing, God save the flag, God save the King. At the ends of th
world, the flag's un-furl'd, We'll nev-er let the old flag fall.

# SPECIAL NOTICE RE ORDERING CARPETS

**Sewing all Plain Carpets 5c per yard. Sewing all Bordered Carpets 7c per yard. Hand sewing Wool or Union Carpets 7c per yard.**
**When ordering carpets not estimated on by us allow at least 1½ yards to every 20 yards needed for each room for matching pattern. Where borders are required low 2 yards for every 20 yards needed. If carpet can be cut with less waste difference will be refunded.**
**We have represented here some of the leading values in demand by our Mail Order Customers. If none of these meet your requirements, write us, giving full particulars of what is desired, when we will advise you whether we can supply, we have many other lines. Estimates and suggestions cheerfully submitted.**
**Linoleums and Oilcloths are inspected and in perfect condition when shipped from our store. Examine crates or bales and make sure they are in good condition before signing railway receipt. In cold weather these goods become frozen in transit and must be handled very carefully. After taking off baling leave in a warm room until thoroughly warmed through and goods become pliable, before unrolling, otherwise goods will crack.**
**Do not tack Linoleum or Oilcloth when originally fitted to the room (except at door-ways), as it is necessary that they lie at least 10 days to stretch and become fitted to floor when they may be finally trimmed and tacked. In the meantime customers must use care not to break edges where exposed. Do not allow water to get in the seams or underneath Linoleum, as it will cause the goods to rot from the backing, for which we cannot be responsible.**

## A MATTRESS THAT'S AS LIGHT AS SILK

### ORDER A "JAVA KAPOK" AND TEST ITS QUALITIES FOR YOURSELF

**63-207. Java Kapok** filling for mattresses is a silky down similar to cotton. It is the lining of seed-pods of certain trees (called silk cotton trees) which grow in the tropics. Java Kapok is so light and springy that it is extensively used, not only for mattresses, but for life belts and pillows. It is so light that a cubic yard of Kapok packed tight weighs only twenty pounds, consequently the property that makes mattress so valuable is its extraordinary resistance to heat. It is said to be warmer than wool, and six times as light. You can soak the filling of a Kapok mattress in water and it will not spoil or decay. We guarantee every mattress to be absolutely comfortable, clean, elastic, sanitary, vermin proof, and non-absorbent, and will retain its resiliency indefinitely. The art ticking of mattress is of good quality, tufting is even and well distributed, wide border, closely stitched, which prevents mattress from breaking down on the edge. The largest size Kapok mattress, say 4 ft. 6 ins. x 6 ft. long, weighs only 25 lbs., or half the weight of an ordinary mattress. Smaller sizes in proportion. It is also made in other sizes as follows. **Freight paid to your nearest railroad station.**

## A TRIUMPH OF LOW PRICING

**AUTOMATIC DROP HEAD**—When not in use the head may be lowered into the bed of the machine, completely out of view, and the machine then serves as a table.

**BEAUTIFUL QUARTERED OAK WOODWORK**—The development of the cabinet worker's skill and the designer's art have been brought to their highest stage in the production of this beautiful cahinet. The quartered oak is of a specially selected grain, hand - polished, and relieved by drape and scroll carving.

**THE MECHANICAL CONSTRUCTION** of the Seamstress Rotary is such that there is no possibility of its clogging or choking up. This is a strong point, and one that distinguishes the **Seamstress** from other machines of the rotary type.

**AND THERE'S THE SELF-ADJUSTING TENSION**—You simply feed the goods into the machine, and the tension adjusts itself automatically to the thickness of the cloth, without giving it any of your attention whatever. The goods can be of the sheerest, filmiest silks, or the heaviest woollens, the automatic tension will adjust itself.

**THE SEAMSTRESS ROTARY** runs just one-third faster than the common type of machine. This means one-third more work accomplished in the same amount of time.

**THE AUTOMATIC TENSION RELEASE,** the improved bobbin winder, with its automatic release, the convenience in oiling all parts from above, the automatic stitch regulator, the two spool pins, the roller-bearing feed and self-threading hobbin case. **62-225. Price, freight paid..... 33.65**

**ATTACHMENTS COMPLETE supplied free, nickel-plated, of steel construction. Packed in attractive and durable black enamelled metal box, nicely lined with velvet, also Book of Instructions.**

BALL-BEARING WHEEL

BEAUTIFUL QUARTER-SAWN OAK CASE

FREIGHT PAID

62-710 Style

**THE CABINET WORK** is both original and beautiful. The accompanying illustration does not do full justice to its most substantial construction, the hand-rubbed mirror-like finish, and the selected quarter-sawed oak utilized throughout. Of course it is equipped with an automatic lifting device, which quickly, quietly and easily raises the sewing head to place.

**THE SELF-REGULATING TENSION**—a patented device that cannot be used by manufacturers of other machines. It is difficult to duly emphasize the importance of this contrivance, which automatically, and without any attention from the operator regulates the tension for all classes of goods and sizes of thread. After you have once seen it demonstrated in your home you will never again be satisfied with the ordinary tension devices.

**THE NICKEL-PLATED STEEL ATTACHMENTS** are of the very highest quality throughout. They are all packed in a double black enamelled velvet-lined metal box and are accompanied by a profusely illustrated, easily understood Book of Instructions.

**THE BALL-BEARING STAND** raises easily and quietly. It is finished in black enamel, and is equipped with a belt-retaining guard and non-binding steel pitman.

# "SEAMSTRESS" HAND MACHINE

CONVENIENT AND USEFUL

**THIS "SEAMSTRESS" HAND MACHINE** is designed for travellers, and for those who are physically not equal to the exertion of operating a treadle machine. It is high-class throughout, and is well worthy of the name **"Seamstress,"** which in sewing machine circles indicates the best quality. **The Multiplying Gear Attachment** enables you to operate this machine at a good speed with but little exertion. A complete set of attachments is supplied free of charge. **Furnished in two styles,** one with polished, quarter-sawed oak base and cover, and the other with substantial iron base and no cover.

# DRUGS AND CHEMICALS

## PRICES SUBJECT TO MARKET FLUCTUATIONS

**The prices being subject to great variations, we cannot guarantee them should the market change greatly. We reduce when the market price falls, but do not always raise our prices when the market price rises.**

***Prices Include War Tax Throughout the Drug Pages***

## IMPORTANT NOTICE

**NOTE 1**—We neither sell liquors nor procure them. Female pills, etc., not sold except on physician's prescription.

**NOTE 2**—When the word POISON is placed after any item, it is necessary to have physician's prescription accompanying order, which can be repeated if so marked; but for very VIOLENT POISONS it is necessary to have a new order or prescription each time, or if a long distance from physician, STATE WHAT POISON IS REQUIRED FOR and how it is going to be used.

## PRESCRIPTIONS

**In our dispensary we employ only qualified chemists, and all prescriptions are carefully made up and checked before being sent out. Our Mail Order Customers can rely on having their orders promptly and efficiently cared for.**

**NOTE** When an order comes in for a drug, patent medicine or proprietary article which we do not stock, we procure it without delay if possible, but if there is any delay, such as sending to the States or to Europe, we notify customer before sending. NOTE—Under the Dominion Act in regard to patent or proprietary medicines, should item not be registered there will be considerable delay, as the authorities in Ottawa require to be satisfied that no injurious substance enters into the preparation, and that the dose is of a perfectly safe character where not mentioned on label.

**We carry a very extensive line in Drugs and Drug Sundries required for the home and the farm.**

**We do not make a sale of less than FIVE CENTS, EXCEPT where the ingredients are in a mixture. But when wanted separately FIVE CENTS is the SMALLEST charge we make for any item of drugs.**

**When pounds are quoted, it means 16 fluid ounces if liquid, and 16 ounces by weight, if dry. A pint is 20 fluid ounces, and a gallon 8 fluid pints. Some fluids are sold by weight, such are specially mentioned.**

# THE FINEST OLIVE OILS

**88. Nec Plus Ultra Olive Oil.** This selected oil is obtained from olives grown in the valleys of the Maritime Alps which are the very finest olives, and only the lightest oil is taken from them, consequently it is of the greatest medicinal value, being easily assimilated. We are the only importers of this special quality into Canada, and can positively state that it is the very finest oil produced.

3-oz. bottle ..... 25c
8-oz. bottle ..... 50c
Pint bottle ..... 1.00

### EXTRA SUPERFINE OLIVE OIL

88. This is a very superior Oil, of good flavor and made from ripe olives grown in the Maritime Alps, but of fairly heavy pressure, imported by ourselves.

8-oz. bottle ..... 40c
Pint bottle ..... 75c

**88. Extra Virgin Quality Olive Oil** is a splendid oil obtained from sound, ripe olives grown in the valleys of the Maritime Alps, but is a slightly heavier pressure than our Nec Plus Ultra quality and only a connoisseur could tell the difference between them. Bottled by ourselves.

2-oz. bottle ..... 15c
4-oz. bottle ..... 25c
8-oz. bottle ..... 45c
Pint bottle ..... 85c

### CUISINE PURE OLIVE OIL

88. This Oil is rather heavy and is obtained from olives grown on the higher altitudes of the Maritime Alps. The flavor is also more pronounced, but it is an absolutely pure, full-flavored, sweet olive oil, and for cooking or salads is most palatable, nourishing and economical.

### ELASTIC STOCKINGS

**Note**—Re size of stockings, an average proportioned leg measuring 14 inches at the calf, will require a No. 8 stocking, but should a part of the limb be swollen then a special stocking would have to be made. In sizes above No. 8 allow for calf measurement, 1 inch for each size larger; and the price per size over No. 8 is increased as follows: Thigh stocking, 25c; knee stocking, 20c; garter stocking, 15c; leggings, kneecaps or anklets, 10c a size. Then when there is a marked difference in sizes between the regular sizes and what is required either in length or any other part, a special stocking has to be made, the price of which is about 25 to 33 1/3 per cent. more than the regular prices.

Directions for Measurement:
Anklet, measure at A, B, C.
Legging, measure at C, D, E.
Garter Stocking, measure at A, B, C, D, E.
Knee Cap, measure at E, F, G.

## EATON'S GOLD LABEL PERFUMES

These Perfumes are divided into two classes: those representing the odors of individual flowers like **Moss Rose, Violet, Lily of the Valley,** etc., and those representing bouquets, such as **Canada Bouquet, Fougere Royal, Jockey Club,** etc. The prices of perfumes depend primarily upon their strength, concentration, and upon the artistic skill with which they have been combined. We strongly recommend Gold Label Perfumes to our customers with the assurance that they will find them exquisite productions of the Perfumers' Art, and to have all the elements of sweetness, durability and power.

# FREIGHT CHARGES PAID ON CIRCULAR SAWS

**13-512. CROSS CUT SAW.** **13-513. RIP SAW.**

These **Circular Saws** have won a reputation that we are very proud of. Are made from the finest steel produced. They are geometrically perfect and every blade is as true and free from flaws as it is possible to make them. Being tempered and straightened by heat and pressure in air-tight ovens, between heavy revolving plates, a perfectly even temper is produced throughout the saw and this process renders them much less liable to buckle. These saws will stand up to their work under all circumstances and will hold an edge longer and do more work than most other circular saws on the market. The gullets are correctly ground and this also lessens the liability of any saw cracking between the teeth. You will find every saw to be faultless in material and manufacture. When ordering be sure to give all the information requested. Circular saws are shipped direct from factory. **State whether cross cut or ripping is required.**

# "WATER MOTOR" WASHER

**15.00**

**STRONG WRINGER ATTACHMENT**

**PRICE DOES NOT INCLUDE SINK OR TAPS**

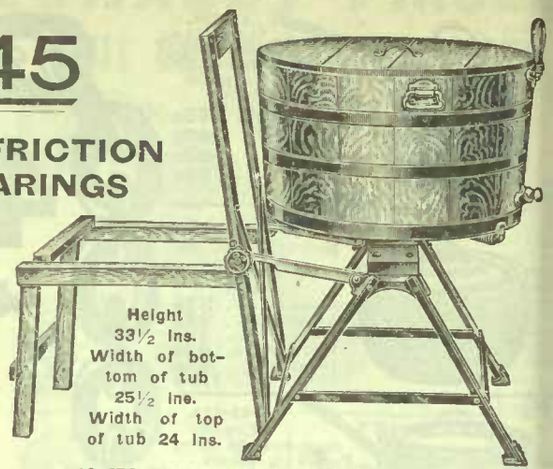
Height 29 Ins. Width of bottom of tub 25 Inches. Width of top of tub 23 Ins.

**13-475. The Water-Power Washing Machine** is manufactured from selected materials. Is fitted with wooden dolly inside, and sides of tub are corrugated, so that the clothes are rubbed as thoroughly as on any washboard, and without labor. The motor is of the poppet valve system, which will not corrode or stick up with sand or dirt that might be in the water. The cylinder and cylinder heads are brass and the piston aluminum. Gearing is of best malleable iron, and is covered by shield. The washer is fitted with tub stand. To find out if you have sufficient water pressure to run this washer, turn your tap on full, and if you have a flow of 3½ gals. per minute, the pressure is sufficient to operate this machine. Price **15.00**

# "MISSION" WASHER

**9.45**

**HAS ANTI-FRICTION BALL BEARINGS**



Height 33½ Ins. Width of bottom of tub 25½ Ins. Width of top of tub 24 Ins.

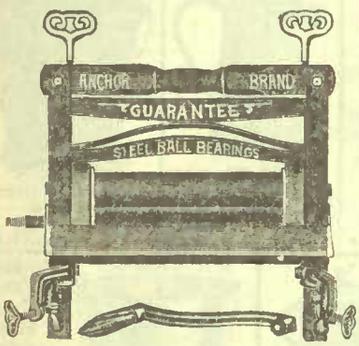
**13-476. The Easy Working Mission Washer,** combined with hardwood tub stand and wringer board, saves time and labor, saves a separate wash bench, saves taking off and replacing the wringer. The tub is carried on a steel pivot, rests on anti-friction ball-bearings, making a strong and simple washing machine. The motion spring beneath the tub aids greatly in the work. The mechanical principles on which this washer is built assure you the most satisfactory results in the saving of time and labor, and the quick and perfect cleansing of the clothes. The tub is made from the best quality kiln-dried lumber, out of one of the finest known woods to stand water. Inside castings are all galvanized to prevent any possibility of rusting. **9.45**

**We pay the Shipping Charges on all $10.00 Orders and over. Our values are made more attractive by our $10.00 Free Delivery.**

## WOODYATT MANGLE 7.85

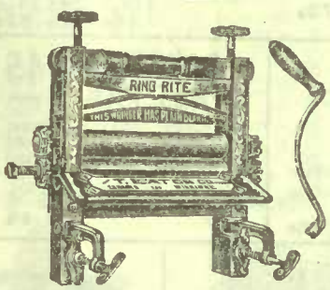
**13-477. Ball-bearing Mangle** to clamp on table. Has 24-inch hard maple rolls 3½ inches in diameter, nicely finished, compact and strong. Easy to operate. Price..... **7.85**

## 5.50 THE "GUARANTEE"



**13-478.** In general construction this **Wringer** is similar to the "Universal" with the exception of the rollers, which are made of what we consider the highest grade rubber for this purpose, being pure Para white rubber. Another favorable feature is the enclosed cogs and high-grade ball-bearings by which the rolls can be turned with the least possible effort, thus lightening the wash-day labor. While made for durability and service, the "Guarantee" Wringer is handsomely finished, and particular care has been taken that every part is perfectly fitted. The quality is high and the price low. Price..... **5.50**

## THE "RING-RITE" 2.85



**13-480. The "Ring-Rite" Clothes Wringer** has 10-inch genuine rubber rolls, vulcanized to shaft, exposed cogs, strong spring and top screws, adjustable clamps, which will fit galvanized, wood or fibre tubs. You take no risk in buying this wringer, as it is sold under the **EATON** guarantee. Price..... **2.85**

## THE "UNIVERSAL" 4.90

**13 - 479.** A strongly made, correctly proportioned **Wringer,** highly finished hardwood frame, 11-inch white rubber rollers, securely vulcanized to the shaft; strong spring with top screws, all exposed parts are non - rustable, fitted with ball-bearings, thus ensuring the best possible amount of labor in operating. The clamps will fit wooden, fibre or galvanized tubs. This is a well-known, high-grade wringer. Price..... **4.90**

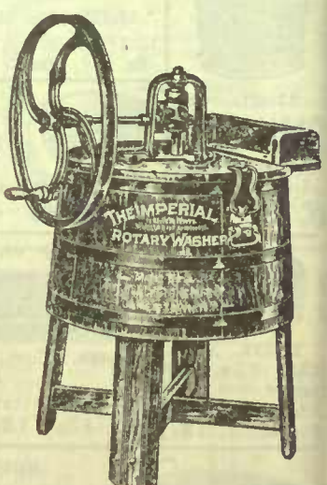
# "IMPROVED TORONTO" 4.25

**13 - 481.** A strongly constructed machine, made of best selected stock, and all parts securely braced to stand continuous service. Large style lid, which opens in such a way as not to interfere with wringer. It is fitted with the improved lever gear, and the tub is fully corrugated on the inside, on the same principle as a wash-board. Hoops are heavy steel, through which the four legs are securely bolted, ensuring steadiness when operating. Joints are perfectly tight, thereby retaining the heat in the water for a considerable time. No foul steam can escape when washer is in use. The perfectly tight joints retain the heat in the water, thereby washing cleaner and easier. Either fine or coarse materials can be thoroughly and safely washed in this machine. Easy to operate. Height 29 inches. Width of bottom of tub 25 in. Width of top of tub 23 in. **4.25**

# WRINGER AND TUB STAND 7.00

**13-482. Thla Combined Folding Tub Stand and Wringer** is made from specially selected hardwood, with all fittings galvanized to prevent rusting. Strong spiral spring, 11" - inch solid rubber rollers vulcanized to shaft. Outside non-rustable cogs, reversible drip board, which conducts the water into either tub. Takes up very little room when folded. You will be pleased with its substantial and neat appearance. Price.. **7.00**

# "IMPERIAL ROTARY" 7.50



**13-483.** This is a strongly - built **Washing Machine,** easy to operate, and it runs with less noise than most rotary washing machines. It is constructed with sliding cylinder on square post, insuring the greatest strength of any rotary gearing yet produced. It has roller - bearings. The overlap lid allows the top of washer to open up to nearly full size. This machine is equipped with detachable collar for inside dasher, which prevents the clothes from being torn. The wringer shelf allows plenty of room for attaching a large-size wringer. The tub is made of best quality Louisiana Cypress, and is handsomely finished. This machine will wash everything from the finest fabric to heavy blankets. The mechanism is simple, but substantial and compact. Height 30 inches. Width of bottom of tub 25 inches. Width of top of tub 24 inches.. **7.50**

**THE CROWN HURON RANGE** is constructed for burning coal only. It is made of the highest grade stove plate iron, and designed with the improved two-flue system. **This Double Flue** arrangement compels the whole of the heat to travel around the oven before entering the smoke outlet, thus ensuring the use of all the product of combustion without any waste.

**THE FIRE BOX** is correctly proportioned for perfect combustion of fuel combined with economy. It is fitted with duplex grates, and has brick lining front and back. The dampers are simple and easy to operate, and placed where the greatest efficiency is obtained.

**THE HEARTH** is provided with a sliding hearth plate and a full size ash pan with bail handle.

**THE OVEN** is a perfect baker, and uniformly heated in all parts. It is of the square pattern, and the door is full sized, and fitted with foot door trip. Also supplied with handy side shelf for examining baking.

**ONE SECTIONAL COVER** in three rings is provided with each range. The range is elegantly trimmed with nickel, which adds greatly to its appearance, and is as illustrated in picture—a handsome range at exceptionally small cost. The back shelf is supplied with two handy teapot stands nickel-plated.

# 34.70 Acme B FOR WOOD

AS ILLUSTRATED

**THE Acme B RANGE** is a cast-iron range constructed for burning wood. The grates are of the exclusive type for wood that have proved so successful when wood is the fuel. The flues are the proper size, and arranged to give perfect draft, and carry the heat where it is needed without any waste, and are easy to clean out. The flue strips are of heavy cast-iron, tightly fitted and securely bolted. We recommend this range to those needing a wood range for a few years, which can readily be converted into a coal range if occasion should demand it. We sell a complete coal fire box that will fit this range for $3.00 extra.

## AN IMPROVEMENT

An added improvement to the Acme B is the massive drop oven door and heavily nickelled front base and legs, and improved end door. These features add very materially to the appearance of the range, and as a cooker and baker we consider it the equal of any wood-burning range manufactured, and as you are fully protected by the **EATON Guarantee** it is a perfectly safe investment for you and one we feel confident you will not regret making.

## THE MAIN TOP

Is fitted to allow for expansion and contraction without any danger of fire cracking. The plates are properly braced to prevent sagging. The covers are guaranteed not to warp or split from the heat, and are interchangeable, one sectional cover being included. The long centres are also non-warping.

FOR COAL OR WOOD

**THIS IS A RANGE IN EVERY SENSE OF THE WORD, BEING ENTIRELY OPERATED FROM FRONT. IT IS BUILT ON THE MOST SCIENTIFIC PRINCIPLES OF RANGE CONSTRUCTION, ADAPTED TO BURN HARD COAL, SOFT COAL AND WOOD.**

**E BODY** is made of heavy gauge polished and oiled blue steel sheets, closely riveted, with double air space between oven bottom and main bottom, the flues being thoroughly lined with asbestos millboard. It is fitted with cast-iron smoke flue, has heavy steel bands ind the bottom, nickel-plated in front, rests on four substantial slip-on legs, the two front s being nickel-plated.

**E ASHPIT** is fitted with ashguards so constructed that all the ashes will drop into the ash-pan. It is also provided with full size end draft operated from the front.

**E OVEN** is very large, measuring 20½x20½x15½ inches high, is supplied with two oven racks, and will hold twelve 10-inch pie es at one time. A special feature is the oven door construction, which is ble and effective, being strongly braced on both sides, and will stand strain of 500 lbs. when open. The oven is thoroughly ventilated.

**E FIREBOX** A special feature of the firebox is the heavy chilled cast linings, the back lining being 1¼ inches thick in the tre. The front lining is in three pieces, of chilled iron castings, making tal of 1½ inches in thickness. It is fitted with combination pouch feed wood door, and by simply lifting out a small piece of the end brick the re can be readily changed from hard coal to soft coal or wood. When ch feed is open fuel can be added from the front. An extra wood grate upplied which drops in on top of the duplex grates. The duplex grates be removed without disturbing the firebox linings.

**E TANK** which holds eleven Imperial gallons, is made of cold rolled planished copper, encased in steel, and heated by contact. ther new and exclusive feature in range construction is our broiling ion. It is operated by the shaker.

**E TOP COOKING SURFACE** which is polished, measures 42 x 29 inches, and has six 9-inch cov- one of which is a reducing cover. All are interchangeable.

**E HIGH WARMING CLOSET** has many advantages. First, it is very roomy, and has glass oven rs. The doors are of the drop pattern, with gravity catches on the ges. We have also added a timepiece. We consider the most important ce for a timepiece is in the kitchen, and if in the kitchen, it should be on range, as everything done on a range is done by time, and, as this range ks everything to the minute, it is important.

**STYLE AND FINISH** the "Old Honesty" is of a rich, pleasing design, is easily kept clean, does not require blackleading, a damp rag being all that is neces- y to keep this range looking new. There is no over-ornamentation or excessive carving to de- t from its pleasing appearance. It is a splendid baker. Pastry and bread do not have to be ned in the oven when baking.

Height over all to top of warming closet 60 inches. Main top over all asures 56x27 inches.

**THE *Acme* RANGE** is made from our own specifications, and has been constructed to meet the needs of Canadian homes. It is made to burn hard coal only, and will give perfect satisfaction with this fuel. The duplex flue construction makes it possible to get the desired heat in the oven with a small amount of fuel.

**THE FIRE BOX** is oblong in shape, lined with fire brick, and fitted with duplex grates, which may be removed without disturbing the brick linings.

**THE OVEN** is square plan, fitted with an oven rack and oven door opener. This oven is a good baker, and is heated evenly.

**THE TOP** has one reducing ring cover. The rest of the covers are of the double pattern which prolongs their life and prevents warping.

**THE TRIMMINGS** The range is plain in design, all carving possible having been purposely avoided in order to give it the rich appearance, and save labor in cleaning. The nickel parts are carefully arranged to give the range a well balanced, pleasing appearance. These nickel parts are removable for cleaning purposes. Size of main top over all measures 46x28 inches.

## THE CONSTRUCTION

The Acme C Steel Range is made of heavy rolled sheet steel, and is accurately proportioned in all its parts. It is cabinet style, and stands on four cast corner legs, which allows free access for sweeping under the range. The oven is square pattern, and measures 20½ x 21 inches, fitted with full-size drop door, and ornamented nickel edge trimmings and nickel medallion, having loose centre removable for thermom if desired. Should thermometer be wanted on the oven door instead of the plain centrepi mention this in your order, and add $1.00 to the price.

## THE WOOD FIREBOX

The Acme C can be fitted to burn wood 26 inches long, and for this purpose is supp with a special firebox, designed to be both efficient and economical. As a w burning steel range you will find it to be just as satisfactory as when coal is the fuel, al features being just the same with the exception of the special firebox.

## THE RESERVOIR AND WARMING CLOSET

The Reservoir is made of heavy copper, tinned inside, and finely nickeled outside. I supported in place at either end by brackets. It holds ten gallons of water, and has a clo fitted black japanned cover. The warming oven is made of best rolled sheet steel, and roll top door, and all edges, corners and handles nickel-plated. The length of stovep running up through the warming closet, as shown in cut, is sent out complete with e warming closet, and the opening at top is 7-inch standard size for connecting with the u stovepipe.

The Acme C is a range of very handsome appearance, the smooth nickel ornam tation adding elegance and brightness to a correctly designed and comp body structure. It is made in one size only, this being the most serviceable, and has a hole top with 9-inch covers, including one sectional cover in three parts. We are enable sell the Acme C Steel Range at the special price quoted, as we buy immense quanti In one size only, and that the most desirable size for any household. We s this range strongly crated with wood, and corners of crating strengthened by band iron, of itself being a feature that has proven satisfactory by greatly reducing the chance of dam in transit. Each range is sent out with shaker, lifter, poker and scraper; all detacha parts packed securely in oven.

# 24.75 HOT AIR FURNACE 30.25

AS ILLUSTRATED — WITH CASING

## POWERFUL - ECONOMICAL - DURABLE

We have had this furnace constructed so as to give the greatest efficiency possible for the amount of fuel consumed. The general construction is of the low set type which leaves plenty of pitch for the hot air pipes, making for fast service.

**THE GRATES** are the triangle rotary grates, any one of which may be removed and replaced without tearing down the furnace.

**THE FIRE POT** is made in two sections, which saves the cracking caused by expansion and contraction, and in case of repairs saves half the expense.

**THE RADIATOR** is the most important feature of any furnace. This is made with one flue which starts at the feed door and does not allow the smoke or gases to escape until they have travelled completely around to the other side of this feed door. A baffle plate at the smoke pipe collar distributes this heat the full depth of the radiator.

**THE COMBUSTION CHAMBER** has a separate wall from the radiator, making another steel surface, or three steel surfaces in all, throwing heat into the casing in addition to the cast top and fire pot.

**DIRECT DRAFT.** A damper is placed in the radiator on the side of the door nearest the smoke collar. This gives a quick, short route for smoke when putting on coal.

**DUST FLUE.** A dust damper and flue are so arranged as to take the dust, caused by dumping the fire, into the smoke outlet.

**GENERAL.** This furnace is built to burn coal only, and has proven itself equal to the capacity as shown in our catalogue when the weather is zero. In order to assure yourself of plenty of heat for extreme weather allow 20 per cent. reserve for every ten degrees that your weather drops below zero.

**INSTALLING.** We do not install furnace outside Toronto, and would recommend our customers to procure their hot air and smoke pipes locally as conditions do not nearly enough resemble each other in the different houses to make standards possible. Make your hot air pipe run as direct as possible, giving an advantage in size to long runs. Never put a hot air pipe in an outside wall. Take the cold air from the coldest part of the house to the bottom of the furnace casing as direct as possible, and an amount equal to the combined total of the hot air pipes. All hot air pipes must continue to rise from the furnace to the registers.

**SMOKE COLLAR.** The smoke collar is made interchangeable so as to be easily put on either side of the furnace. A steel plate is arranged with bolts to allow of this change without cutting. This allows you to have your smoke pipe on either the right or left side without ordering it specially.

**DRILLED.** If you wish your furnace drilled in order to connect it to the boiler add **1.00** to the price as shown in catalogue, and state **"Drilled"** when ordering.

**SIZE REQUIRED.** To ascertain size of furnace required multiply the length of house in feet by the width of house in feet and multiply this total by 18 if house is two-storey, and by 27 if house is three-storey.

# THE Acme C FOR WOOD

**44.50**

AS ILLUSTRATED

**THIS RANGE** embodies all the latest improvements known to the stove manufacturers. It has a big square plan oven, size 20 inches, fitted with oven rack and drop oven door. This door forms a convenient shelf for pulling out baking to examine or for basting.

**THE FIRE BOX** is deep and narrow when fitted for coal, which shape economizes fuel, and makes a good baking fire. The fire box is fitted with duplex grates lined around with fire brick. When wood is the fuel burned the fire box is fitted with cast-iron linings, and will take 26-inch wood. The draft to the fire enters from both ends of the fire box, thus giving each end a good supply. This also makes a fast, even fire. The top has six 9-inch covers, including one reducing ring cover and one damper cover, which will be found very useful for checking fire over night.

**THE ASH PAN** is large and roomy.

**THE WARMING CLOSET** is finished in tile of a combination of tasteful colors. The doors of the warming closet are made with mirrors. The top finish rail has an oval mirror as well. Size of warming closet 37x12 inches.

**THE GENERAL APPEARANCE** of this range is very pleasing, and the tiled warming closet is sanitary, easily cleaned, and will last the full life of the range. We can recommend this range to those wanting a first-class, high-grade cooking fixture.

**THE QUICK BAKING FEATURE,** the roomy oven, the ease with which it can be cleaned, the attractive appearance, the general up-to-dateness of this range, have made it a general favorite wherever sold.

**THE RESERVOIR** is 19½x13x9 inches. Stove is supplied with lifter, poker, shaker and towel rack.

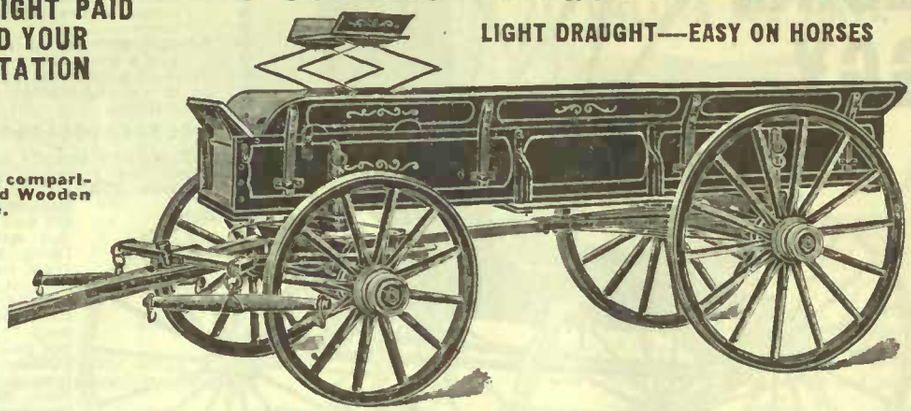
# OUR 1916 IMPROVED FARM WAGON

## 71.00 FREIGHT PAID TO YOUR STATION

### A SUPERIOR WAGON AT A VERY LOW PRICE

LIGHT DRAUGHT—EASY ON HORSES



**NOTE THESE FACTS**

Has the good points of its competitors and many special improvements not found on other wagons.

**Heavy Round Truss**
**Sandproof Arm**
**Steel Hounds**
**The Riveted Wheel**
**1¼-inch Box Bottom**
**Riveted Box Cleats**
**Clipped Bolster Plates**
**Clipped Gear**

**STEEL HOUND**

**Our Steel Hound is in the same comparison with the Wood Hound as the Old Wooden Bridge is to the Modern Steel Bridge.**

**THE AXLES**

**We use the highest quality of Canadian maple for axles, which is far better than any other wood for the purpose. The hickory now procurable is not as suitable, strong or serviceable as good, clear, thoroughly seasoned maple. Ask any woodworker. We absolutely guarantee our axles. We know of no better axle made.**

Full clipped gear; wheels have riveted rims; steel hounds; special patented sandproof arms. Skeins made of semi-steel castings; heavy bridged iron truss rod running from end to end of both front and hind axles. Nothing but thoroughly seasoned wood stock is allowed to enter into these wagons. No trouble with loose spokes, loose tires, loose skeins. Then the wood parts are all thoroughly ironed, braced and trussed to give them the necessary strength to stand hard service. The wheels are exceptionally well built in every particular. Hub has four steel bands put on under hydraulic pressure. Tires are first heated and set under hydraulic pressure. As already mentioned, the rims are riveted each side of each spoke. We do not know of a better wheel built. We get light draught because our wheels are given the proper "dish" and the wagon arms the correct "set" so that the wheels run on a plumb spoke—no pressing against nut or collar of skein. **Materials Used**—Pole, bolsters, reach, sway bars and hounds choicest No. 1 white oak; rims and spokes best quality oak for the purpose; hubs are black birch; whiffletrees and neckyoke oak, ash. **Boxes**—Bottom is made of narrow boards of well seasoned stock tongued and grooved, with heavy sills, and well reinforced. Sides and ends are selected box lumber held together with heavy rods. **Excellently Finished**—The finish of this wagon is all that could be expected. The gears and wheels get three coats of good red paint (made with pure lead and linseed oil), and one coat of high-class wagon varnish. The box receives two coats of black inside and three coats of green on the outside, and varnish coat. Both the gear and the box are neatly striped, so that the appearance of the wagon is in keeping with the high quality of material and workmanship. Wagon box is 13 inches deep, with full shelving and seat, or 10-inch straight side top box can be supplied instead of shelving if desired.

## BUILT FOR LONG SERVICE, HARD WEAR, AND SOLD UNDER THE EATON GUARANTEE

Our **Farm Wagon** at every point has superior construction, is highly finished and a favorite wagon wherever used. It is easy on horses, and an especially great value at our price. Complete with strong, tight box and full shelving, spring seat, whiffletrees, doubletree and neckyoke. All wagons are shipped direct from the factory. State width of bolsters wanted when ordering. Note the low prices on these high-grade wagons.

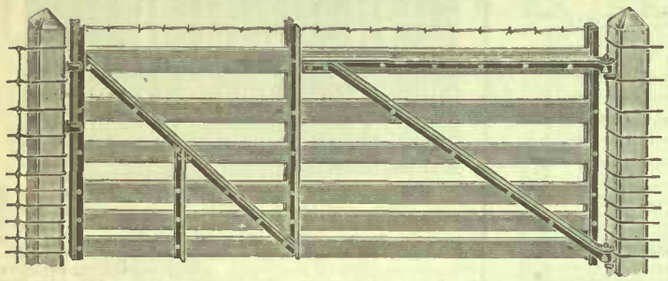
# 7.25 NEVER-SAG GATE

## HEAVY ANGLE STEEL BRACES AND WOOD BARS

### FREIGHT PAID TO YOUR STATION



### READ THE FACTS ABOUT ITS CONSTRUCTION

This is certainly one of the strongest **Farm Gates** made. It positively will not sag—it cannot sag. The braces and hinges are all heavy angle steel. The top hinge is a combination of hinge and brace, and is bolted to top board for a distance of six feet. You can see the immense strength this feature gives. This hinge is also bolted to steel frame at end of gate. The lower hinge is bolted to steel frame at end, and up over the boards at an angle; then, to further strengthen the gate, this lower hinge is bolted fast to the top hinge. This forms a self-supporting frame which absolutely prevents the gate from sagging. The end of a gate is where the greatest wear comes, and this has the heavy steel angles covering the ends, which protects the boards of gate. We use barb wire along the top, and also two catches on each gate so stock can not twist or spring the gate when closed. Hogs cannot spring the gate by rooting it. Both the catches can be operated at the same time when they are fastened together by passing a string or wire through holes in the small lugs. Gate will swing open either way—simply slam it, and it locks itself. The boards are selected Southern pine, clear and straight grained. The gate is well painted, boards red, braces and hinges black. This gate will give so many years of service that it will outlast many ordinary gates. We absolutely guarantee it. We ship them all ready to hang.

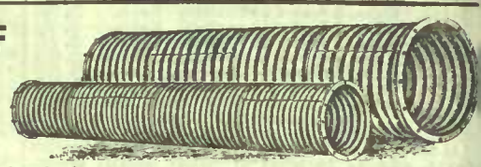
# RUSTPROOF STEEL CULVERTS



Heavy weight galvanized metal; durability and strength are the two fea tures of these Culverts. They have stood the hardest tests and they withstand corrosion and keep their shape. The raised joints make it a simple job to install Instead of overlapping our sections are connected by a square raised join which greatly adds to the strength. This is the best Culvert we know of, and will outlast others of different construction. We can supply any length desired in number of feet and special sizes we will quote on. Connecting bolts are supplied. We ship direct from factory, **freight paid.**

## CAPACITY 180 LBS. OF MILK PER HOUR

## THE SEPARATOR FOR TABLE OR BENCH

**AS SHOWN IN ILLUSTRATION**

The 180-lb. size is just the machine for you if you have two or three cows, or even one cow only. Also for bakers, caterers and confectioners who want a certain kind of cream, or want cream quickly at times, this machine is most handy. It is for setting on a bench or table, and is light in weight and compact. Has screw holes for fastening down. The 300-lb. capacity in bench style is also a most useful size for a small number of cows.

# "NEW ERA" CREAM SEPARATOR

## SOLD UNDER THE EATON GUARANTEE

## CLOSEST SKIMMING--LIGHTEST RUNNING

## FEW AND SIMPLE PARTS

Its features are sharp and thorough clean skimming, easy and smooth turning, strong construction, quick cleaning, simple and few parts, and the highest quality and finish throughout. A child can run this machine—it turns so easily, and is built with "trouble" left out.

**NOTE THE LOW PRICES FOR THESE HIGH GRADE SEPARATORS**

The 300, 600 and 900-lb. Separators, on regular iron base, with shelves, and supply tank set on a bracket, are for floor use in regular standard style. Whether you use the bench style or the machine on base, these Separators are all built alike in working parts, of same high quality, and are the same perfected machines in every way. They skim exceptionally close, and can be cleaned very quickly and thoroughly. They have a patented cleaning rod, whereby in an easy and simple way the discs are removed, washed and again assembled in the bowl. The discs come together and fit anywhere without being numbered. The new patented neck bearing is a special feature which assures steady and almost noiseless running. The bowl is self-balancing, and cannot get out of order.

Every valuable improvement that has stood the test of service is embodied in these machines. They are finished in a rich blue. All gears are enclosed. Tinware is seamless. The oiling is arranged for at a few handy points. The accurately cut gears reduce friction, and make the Separator very light running. All parts of the mechanism are made from smooth, wear-resisting metals, which means long life to the machine.

All Separators are shipped with accessories complete, such as oil can, separator oil, brushes, wrench, screw driver and book of instructions. **We can always supply parts to renew worn ones when required.** These we carry in stock at all times and at lowest prices.

## HIGHEST QUALITY AT LOWEST PRICES

The design, manufacture and material throughout, and the exceptionally low price, give the purchaser an advantage hitherto unattainable. We sell them under the **EATON** guarantee. Our customers all knew the merits of that, and we ask you to compare and test as you like.

## WHICH STYLE OF MACHINE TO BUY

We describe and illustrate in this Catalogue two styles of construction in Cream Separators. The skimming principle is the same in each style of machine, but the difference is with regard to the design of the body and the gearing. Also the sizes and capacities vary in each style, which gives a full line and a wide range of choice. As some users prefer the one and some the other style of construction, we feel able to please all, especially as the skimming principle is of the same perfected type in each machine.

## OUR GUARANTEE

**IMPORTANT:** Try it out in your own way, on your own farm, morning and night. Test it for its extremely close skimming, its easy running and easy cleaning features. Test it in any way you like, and if it fails to make good every claim we make, write and tell us, and ship it back and get your money back. Every machine is covered by our guarantee for its efficiency, and also against any defects in material and workmanship.

## TESTING

Every one of our Separators must undergo a rigid test before leaving the factory. No machine is boxed for shipment until everything is inspected, adjusted, and running perfectly. Many thorough and exhaustive tests for actual everyday skimming and wearing qualities have been given our Cream Separators by experienced farmers, professional dairymen and college officials, which prove its very close skimming and mechanical excellence. When you receive it, it is set up, ready for use. With each Separator we ship a book of complete, simple directions, also list of parts. We also include Brushes, Wrench, Can of Oil and Oil Can.

### READ THIS CAREFULLY

**If at any time parts or repairs should be needed, we carry them in stock and at lowest prices, and we ship them promptly. This is a decided advantage to you.**

**THE BOWL** is the most important part of the separator, as the entire separation takes place within it. The bowl does all the work for which the separator is built. Our New Improved Bowl is a wonderfully close skimmer, due to special patented points of construction which many other disc bowls do not possess. This bowl skims to the last trace, because all the discs skim equally, no discs are overfed, and, therefore, there is no loss of cream. **THE DISCS** are so made that they cannot be put on the cleaner in the wrong way, nor back into the bowl from the cleaner in the wrong order. The discs slip easily off the holder onto the cleaner, and, after washing, back onto the holder, which then is handled as one piece ready to slip into the bowl. There are fewer discs to clean as compared with many other disc bowls of equal capacity.

**ANTI-FRICTION BALL-BEARINGS**—This is one of the newest improvements to our machine. These pivot ball-bearings have reduced the friction to such a large degree that to run the machine is more like play than work. **CENTRE OF CRANK IS 33 INCHES FROM THE FLOOR**—This will appeal to the housewife as being a most important feature. The height permits a natural and easy position while turning the crank. **CORRECT BEVEL GEAR**—This is made to meet the strictest requirements of simplicity, power, smooth and easy running. **ADJUSTABLE BEARINGS**—It is easy to keep the bearings in smooth, normal contact, so as to reduce the friction to almost nothing. These adjustable bearings do this accurately. **NO SQUARE CORNERS**—The top and bottom of the tank are rounded. There are no corners for catching and retaining milk particles, dirt or foreign matter. **STEEL BOWL**—Pressed out of one solid piece of steel, with rounded corners, heavily tinned. It is the best type of bowl used to-day. Made scientifically accurate, its action is perfect all the time. **SIMPLE, EFFECTIVE NECK BEARING**—This is a point that has raised the New Improved **EATON** to a place in the very first rank of cream separators. Upon this neck bearing depends the accuracy of the operation of the skimming bowl.

**EASY RUNNING**—The easy running feature of a separator is important. You will be agreeably surprised when you run this machine. It is so well balanced and light-running that the weight of the extended handle is sufficient to spin the empty skimming bowl. The ball-bearings with which the separator is fitted give this advantage. Ball-bearings are to machinery what casters are to furniture. The more ball-bearings used on a machine the easier it runs. That is the reason why we have fitted both the driving gear and spindle with ball-bearings.

**This is one of the most highly perfected Mills on the market**

We consider this **Separator** equal to any machine we know of. It will not blow clover and timothy seeds out with the chaff. It has an oilcloth apron over the sieves. This is a patent device for separating oats from wheat and other grains. Grain travels over eight feet of screen before the fan blast strikes it. Though of large capacity, it turns easily. The elevator is built on an angle, thus securing a better delivery. It has compound shake end motion, bagger attachment and other features which many good separators do not possess. Wheat, oats, peas, timothy, red-top clover, thistle heads and other weeds can all be put in the mill at once and be perfectly separated. **35.50**

**THE CUTTER BAR**—One of the most important parts of a mower is the cutter bar. No expense has been spared in making it on this mower the best we can obtain. The bar is made of cold-rolled steel, finished in such a way that it is impossible for it to get out of shape. It is manufactured with a smooth top, the nuts being below, with an improved guard rounded away at shank. The smooth top of bar enables the light grass to slip over it without hanging. **THE CUTTER BAR SPRING**—One of the improvements of this mower is the counter-balanced spring to assist the driver in handling the bar. When the bar drops into a hollow the full force of the spring is exerted in bringing it out without the guards plowing the ground and choking the machine. **THE ROCKING TILT** is one of the best features. The bar can be locked in any position, or by the use of the link on the end of lever it can be arranged not to engage in any of the ratchets, and thus the bar will be left free to float on the surface of the ground. **THE PITMAN** is longer than on most mowers, and gives as direct a motion as possible to the knife. We use a hickory pitman, with steel jaws and brass boxing. **DRAFT CONNECTION** is attached above the inside shoe of cutter bar, and extends to the shifting doubletrees, and absolutely overcomes side draft. **THE MAIN SHAFT AND GEARING**—The shaft is made of the very best cold-rolled steel shafting. The main wheels are of good height, and broad on face, giving increased traction. The gearing has only four wheels, and taken in connection with the four driving pawls on main wheels, the result is that when machine moves the knife moves, the lost motion being reduced to an imperceptible point. Machine will stop and start in the heaviest grass crop without backing.

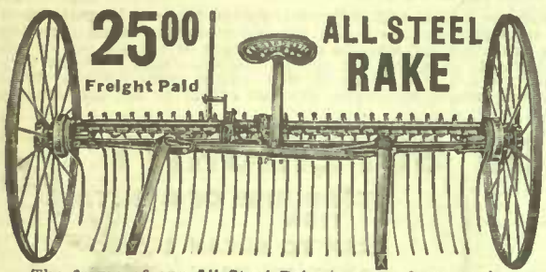
## 25.00 Freight Paid — ALL STEEL RAKE



The frame of our **All-Steel Rake** is made from angle steel thoroughly braced and trussed. It is light, yet has ample strength to handle a heavy crop of hay. The wheels are high, have wide channel steel tires and heavy steel spokes. Hubs are malleable iron, well reinforced. This rake has great capacity—the basket is large, and the teeth lift well above the windrow. Cleaners are connected to the main frame the entire width of the rake. In dumping, the teeth lift well above the cleaners, preventing the windrow being held by the points of the teeth and strung along behind the rake. The automatic dump works by ratchets inside of both hubs. By simply pressing a foot trip near the seat, the rake is dumped, both wheels acting as drivers, and giving quick and positive motion. The teeth return instantaneously to raking position close to the windrow, ensuring clean, efficient, satisfactory work. The hand lever can be used for dumping when desired. Teeth are high-grade steel, oil-tempered, and with coil section to give flexibility and prevent breakage. They have swedged points which pass smoothly over the ground and through the stubble without digging into the ground, thus saving all the hay without loss. Every rake is equipped with two guard teeth. These not only add to the width of the rake, but also keep the hay out of the wheels.

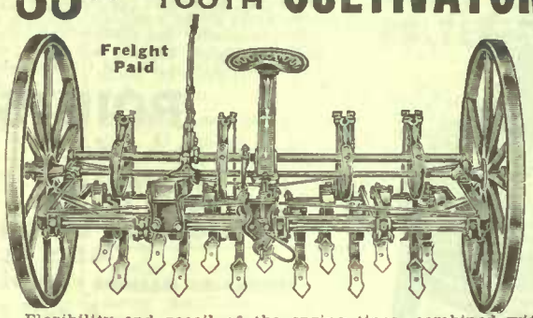
## 33.00 SPRING TOOTH CULTIVATOR

Freight Paid



Flexibility and recoil of the spring tines, combined with materials of highest grade, are factors which make this **Cultivator** superior for cleaning land and eradicating rubbish. It is a necessary implement on every arable farm. A seed bed will be more thoroughly prepared by a Spring Tooth Cultivator. For summer fallowing it is unexcelled, and will do the work of a scarifier, grubber, scuffler or horse hoe.

**Special Points of Construction**—The sections are solid carbon steel, and work independently. The reversible pointed tines are tempered evenly throughout, and we guarantee them standing the greatest strain. Not only are the tines so well made and attached as to work the roughest land without danger of breakage, but the sections, acting independently, accommodate themselves to unevenness of the ground, no matter how hard pressure may be applied, hence one section will be cultivating the bottom of a furrow and another working on a ridge, yet each doing equal work of a uniform depth.

**Movable Tines**—This feature admits of dividing the tines for cultivating corn, beans, potatoes, etc. The tines may be placed close together to cut up all grass and weeds between the rows, and this one tool may serve a great variety of purposes. It gives the farmer a machine he has long required, and will cultivate two or three rows at once and thoroughly.

**Adjustment**—The tines are adjustable, and can be set ahead or back for various kinds of work, and are held firmly in place by a patent locking clip. A steel shoe can be set to keep the teeth at a uniform depth in any soil. The pressure can be made greater or less by a convenient lever, and also the teeth raised from the ground for transportation. This lever has a heavy, double-acting spring, and can, by this device, be made to cultivate an even depth in hard or soft ground. This cultivator is a most reliable implement.

# HAY CARRIERS

The cut represents our new pattern **Hay Carrier.** This carrier has all the features of the swivel and reversible types, and, besides, has many excelling points over other regular styles of carriers. It has a distinctive lock of its own, made in one piece, strong and simple. Has wide open mouth to receive fork pulley when approaching from any direction. It is impossible for the fork pulley to miss the opening. The track wheels revolve on turned steel axles. The rope sheaves turn on large bearings. This carrier can be reversed either by drawing the rope through from end to end or by turning the swivel. Made of best malleable iron, and thoroughly well finished. Notice the swinging fork pulley.

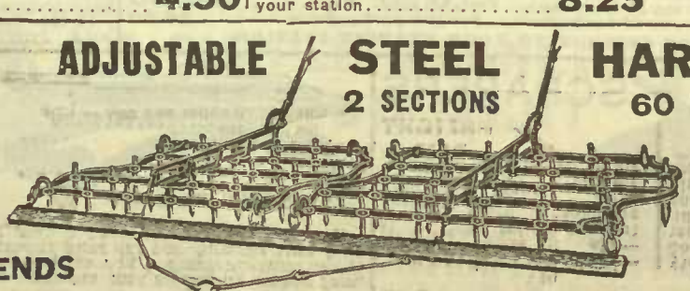
## 14.50 ADJUSTABLE STEEL HARROW

2 SECTIONS — 60 TEETH

FREIGHT PAID



CAN BE SET AT DIFFERENT ANGLES

CLOSED ENDS

An improved type, and one of the best **Steel Harrows** procurable. Has two sections with a total of sixty teeth. The frame is made of U-shaped steel bars, with channel bars across the ends, which closes the space and prevents obstructions catching in between. Teeth are ⅝-inch steel. A lever and ratchet is attached to each section, by which the teeth can be given any desired slant, either for releasing trash, pulverizing soil, or smoothing. Can be turned down for transporting over unplowed ground. Teeth easily released for adjusting depth or to take out for sharpening. Complete with draw bar.

# ORCHARD AND GARDEN PLOW

HIGHEST QUALITY THROUGHOUT **9.85**

FREIGHT PAID TO YOUR STATION

Every Implement has the EATON Guarantee back of it

This is the highest quality Steel Plow throughout, and especially designed for one-horse work. Mouldboard is the best soft centre steel, the same as used in our regular two-horse plows. This plow is the best one-horse plow we know of. It cuts the width it turns, and turns a furrow properly. The extra long clevis allows for the horse to be far over so that plow will work right up to trees, and clevis is reversible so that hitch can be made on the other side and dirt thrown up on vines, etc. It is light and strong, splendidly finished, and made for real plowing. Will stand any test. Capacity is furrow 7 to 9 inches wide.

**71-443. Freight paid to your station. Price..... 9.85**

# HILLSIDE PLOW 7.90

IF YOU WANT A FRICTION PULLEY FOR YOUR ENGINE WRITE FOR PRICES ON SIZE YOU WISH

**READ THIS CAREFULLY**

If at any time parts or repairs should be needed, we carry them in stock at all times and at lowest prices. This is a decided advantage to you.

The working parts are few and simple. The instruction book we send with each engine enables any man to at once run his engine and understand it. Each engine is shipped on skids ready to run, equipped with batteries, spark coil, sight feed oil cup, compression grease cups, starting crank, oil can, oil and wrench. There are no extras to buy with your engine. We supply everything but the gasoline. Fill your gasoline tank and start it. Every engine, at its normal speed, will develop the full horse-power at which it is rated. They are built to stand the hardest service. **We shall be pleased to supply any special information you may wish about engine and power accessories, and help you to decide upon the proper equipment for your requirements.**

**OUR ENGINES ARE LOW-PRICED. NOTE BELOW WHAT OUR ENGINES WILL DO**

**Our 1¾ horse-power Engine** will run cream separator, pump water, run washing machine, small grist mill, corn sheller, grind-stone, etc.

**Our 2¾ horse-power Engine** can be used for heavier pumping conditions, running light machinery, such as small grinders, pulpers, etc.

**Our 4½ horse-power Engine** is a most popular size for all-round ordinary farm work. It will run grinders, shredders, light ensilage cutters, and handle a 26-inch saw. On a line shaft it will run several small machines at once.

**Our 6 horse-power Engine** will run almost any machine used on a farm, except threshers, and heavy grinders or blower heads.

**Our 8 and 12 horse-power Engines** are for heavy work. They are powerful, and run smoothly, and are used for silo filling, heavy sawing, large grinding mills, etc.

**QUICK SHIPMENT: We can ship Engines promptly, as we keep a large stock in our Toronto warehouse. We suggest that you allow reasonable time for the railroad to carry your engine to you at your distance, and would advise placing your order in good time. All our engines are sold under the EATON guarantee.**

### THE NEW KEROSENE OR COAL OIL BURNER

For those that wish to burn kerosene or coal oil (which is the same thing) in their engines we have a burner that has been tested and tried, and has proven to be a great success. So constructed that the kerosene is heated to a vapor before it enters the carburetor. This permits it to explode immediately the spark is applied. We supply a tank with two compartments—one for kerosene, the other for gasoline. Start your engine with gasoline, and in a few minutes simply close your gasoline valve and open the kerosene, and your engines will go without a hitch. We recommend the burner for all engines except the 1¾ horse-power. See prices below. For kerosene burner add extra to price of engine as follows:

**For 2¾ h.p. 9.75 4½ h.p. 11.00 6 h.p. 13.50 8 h.p. 14.75 12 h.p. 16.50**

# FACTS ABOUT EATON ENGINES

**COOLING SYSTEM**—Our engine cylinders are cooled by the water jacket and hopper system. This is the perfect type of water-cooling. The engine is always kept at proper temperature, and under all climatic conditions the water-cooled engine will do the business. The matter of freezing can easily be overcome by using common black lubricating oil in the place of water, or by using ammoniac, or by draining the water off from the cylinder by means of the drain cock. The small amount of water used does not make it a task to drain the water off when engine is not in use.

**THE CYLINDER HEAD** is also water-jacketed. This produces a perfect circulation of water all around the cylinder. The cylinder head has a projection half an inch high that fits into the end of the cylinder, making it impossible for the packing to blow out.

**THE CRANK SHAFT** is drop forged from a solid billet of high carbon steel. Turned and ground to absolute trueness. Heavy check piece and wide wrist pin bearing.

**THE GENERATOR**—We use the simplest form of generator made. Automatic suction feed, doing away with troublesome pumps and mechanical feeds of all kinds. The gasoline supply is regulated by the throttle valve, and gasoline and air are automatically mixed in proper proportions.

**THE CONNECTING ROD** is of the I beam type, of proper weight and length, with wide babbitted bearing on crank shaft end. Piston wrist bearing bushed with brass bushing.

**THE IGNITER**—Our engines are equipped with the make and break type of ignition, which has proven superior to any other for this style of gasoline engines. It insures a strong spark, and does not get out of adjustment. Our igniter can be depended upon for hard service every day.

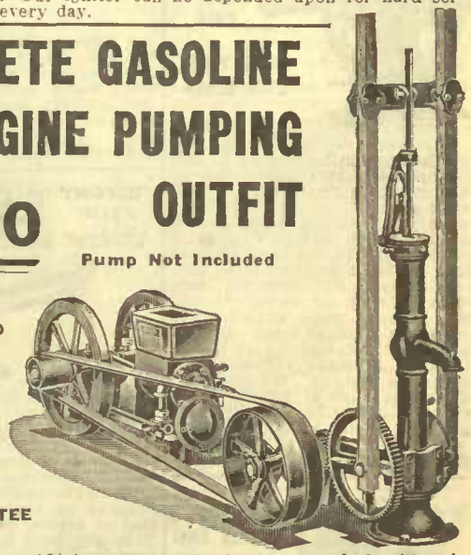
# COMPLETE GASOLINE ENGINE PUMPING OUTFIT

49.00

Pump Not Included

FREIGHT PAID TO YOUR NEAREST STATION

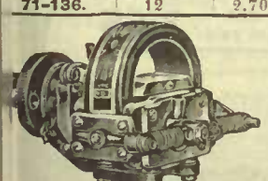
EVERY ENGINE IS SOLD UNDER THE EATON GUARANTEE



This includes our **1¾ horse-power Engine, a Pump Jack with sub-base, and 16 feet of 2-inch Leather Belting.** (Pump not included.) A very satisfactory power outfit. In hot weather, when stock needs plenty of cool, fresh water, the windmill sometimes stands still a week at a time. Then you have to pump water by hand—and you know what work that is, and how much time it takes. This pumping outfit cuts out the hard work, saves time, and pays for itself in a few months. When not using engine to pump you can hitch it to the cream separator, washing machine, churn, or small feed grinder, and keep it working every day in the year. The pump shown in the illustration is not included. We ship outfit complete as stated above, and ready to attach to your pump. Equipped with batteries. See below for Pump Jack details. **71-130. Freight paid. Price 49.00**

**If wanted with Magneto instead of Batteries add $10.00 to price.**

**Should be driven 150 to 200 revolutions per minute.**



# A SIMPLE MAGNETO EQUIPMENT 13.50

FREIGHT PAID

**THE WEBSTER OSCILLATING MAGNETO DIRECT CONNECTED TO IGNITER IS THE MOST POSITIVE METHOD OF IGNITION FOR GASOLINE ENGINES**

We are equipping our engines with the simplest and most reliable **Magneto** we can procure. Engines start right off easily with this magneto. No batteries are needed. The Webster Oscillating Magneto is driven by push rod instead of gears, and is independent of engine speed, and does not spark during the idle strokes of the engine. This insures high efficiency and long life of magneto. With engine equipped with this magneto you need **no batteries, no wiring, no switches, no coils and no gear or friction drive.** There is nothing complicated about the magneto. It is trouble-proof, very simple, and absolutely guaranteed to give satisfaction. It is built to last as long as the engine, and is easily attached to any of our engines already in service. If you have an **EATON** engine, use one of these magnetos with it. You can attach it yourself easily, and the prices below are for magneto when bought separate from engine.

## BORDEAUX MIXTURE AND FUNGICIDE

This is a most effective and reliable **Bordeaux Mixture,** and the best results can be expected from it. Its composition is uniform and of great strength, and pure ingredients are properly combined. It prevents fungus diseases, caterpillars and other leaf-eating pests, and is simply mixed with water. Its keeping qualities are an improved feature over the ordinary mixtures; also it adheres better to the foliage, and does not clog the spray nozzle. If you spray you should use this splendid mixture. One pound makes ten gallons of the solution. It is made in two grades, one non-poisonous and the other poisonous. The non-poisonous is for all fungus growths, and the poisonous is for all kinds of worm and leaf-eating pests as well as fungus growths. Many growers use both according to conditions. Complete directions for spraying, etc., are on the packages.

## DANIELS' HOT WATER INCUBATOR

**9.45**

50 EGG SIZE

For those who prefer the **Hot Water Incubators** the **Daniels** meets every requirement. The two most important factors pertaining to successful incubation are the proper ventilation of the incubator and the furnishing of the proper amount of moisture necessary to the welfare of the chick in the shell. The "Daniels Circulating Hot Water System" overcomes both problems in a manner that renders possible the hatching of every fertile egg. The result is a continuous circulation of pure air that contains, under most conditions, the proper amount of moisture necessary to successful incubation. This pure air is heated after it enters the machine so that not one particle of moisture is lost. With these incubators a successful hatch is assured. We supply simple and complete directions, which make it easy to operate incubator and get a good hatch.
